PROFILE

IT undergraduate at the University of Ghana with hands-on experience creating websites and web applications since high school. Skilled in HTML, CSS and JavaScript, with growing interests in web development, entrepreneurship and cybersecurity. I enjoy turning ideas into practical projects while continuously developing real-world technical skills.

TECHNICAL SKILLS

- HTML
 - CSS
 - JavaScript
 - Git & GitHub
 - Responsive Web Design
 - Web Application Development
 - Cybersecurity
 - Ethical Hacking — Currently Learning
-

PROJECTS

Personal Portfolio — Russette

Designed and developed a responsive personal portfolio website using HTML, CSS and JavaScript. The website showcases my skills, projects and contact information and is deployed using GitHub Pages.

To-Do List App

Built a productivity web application that allows users to create, organize and complete tasks. Developed using HTML, CSS and JavaScript.

Habit Tracker

Built a habit-tracking application that allows users to track habits, monitor streaks and view daily progress. Developed using HTML, CSS and JavaScript.
